PROFESSIONAL SUMMARY

Full-stack developer with 5+ years of experience building scalable web applications and RESTful APIs. Proficient in React, Node.js, and cloud infrastructure, with a strong focus on performance optimization and clean code.

EXPERIENCE

Senior Full-Stack Developer

2022 - Present

InnovateTech Solutions

- Architected and deployed a microservices-based e-commerce platform handling 100k+ daily transactions with 99.9% uptime.
- Led a team of 4 developers to migrate legacy monolith to containerized microservices, reducing deployment time by 60%.
- Implemented CI/CD pipelines using GitHub Actions and Docker, decreasing release cycle from 2 weeks to 2 days.
- Optimized database queries and caching strategy, improving API response times by 40%.

Software Developer

2019 - 2022

DataFlow Systems

- Developed RESTful APIs in Node.js and Express for a real-time data analytics platform used by 200+ enterprise clients.
- Built interactive data visualization dashboards using React and D3.js, increasing user engagement by 35%.
- Integrated third-party services (Stripe, AWS S3) and implemented OAuth 2.0 authentication for secure payments.
- Reduced technical debt by refactoring 20k+ lines of legacy jQuery code into modern React components.

SKILLS

Core Skills: JavaScript (ES6+), TypeScript, React, Node.js, Python, SQL, MongoDB, Docker, AWS, Git, REST API Design, Agile/Scrum

EDUCATION

B.S. in Computer Science

2018

University of California, Berkeley
